ReNATURE

SAVE THE WORLD

PROBLEM:

-People aren't very conscious about the environment, so people always throw their garbage on the ground.
-Peolpe using too much deodorant pierces the ozone layer and this disrupts the balance the World .

SOLUTION:

- Our app will inform people and encourage them to recycle.

- It will attract attention of the people so they will disseminate it to the others .

Our Target Group

- An app which can inform people from all ages and all around the world.
- Help them understand environmental problems.

Sustainable Development Goals
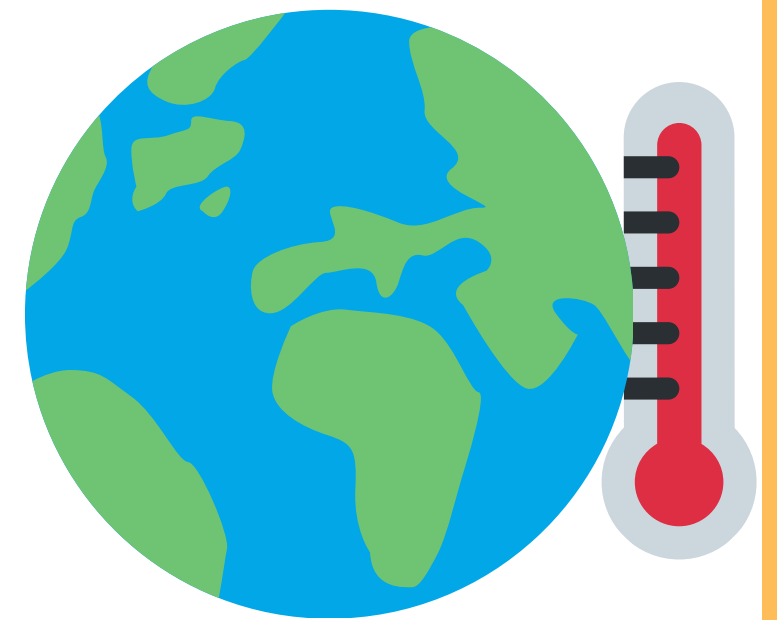

CLEAN WATER AND SANITATION

LIFE BELOW WATER

LIFE ON LAND

CLIMATE ACTION

ADVANTAGES:

- An app which gathered all the information about pollution and recycling! You don't have to spend your hours on searching.
- With future updates,you can go premium and win the "BIG ENVIRONMENTALIST" award by recycling and recycling bins will be easily accessible thanks to GPS technology.
